

TCPIP-232

TCP 232 ADAPTER STANDALONE
AND UNDER VSSI-PRO

AVE

AMERICAN VIDEO EQUIPMENT

TCPIP232 ATM interface is designed to capture ATM transactions on the ATM LAN system then convert captured transactions to serial port to interface with VSSI-Pro (ATM serial interface) or Digital Video Recorder (DVR) which supports text insertion and overlays transaction information to video.

TCP-IP Connections

There are 2 types of connection for the TCP-IP232

1. Stand alone with Digital Video Recorder This connection will interface directly to the DVR which supports text insertion. This insertion will interface via RS232C only from TCP-IP rear panel.
2. VSSI-Pro Interface VSSI-Pro supports text insertion and has programmable gray scale and background of text insertion. User is able to define the ATM IP addresses via on-screen programming on the VSSI-Pro menu.
